Subject: Create a GREAT cleanup plan

We need a river cleanup plan that supports our environment and our economy.

I support a thorough cleanup plan for the Willamette River but the idea that we can restore the river to its original state is not realistic according to the site that sent me here.

I disagree. I think we need to do the most complete clean up possible! We owe it to the future generations to provide a clean river.

Funding it needs to be sustainable, which will be tricky. Care needs to be taken to not put companies out of business, as that will be counter productive.

I know you care about our community and our economy. Thank you for reading and for doing what's best for our region and our jobs.

Sincerely,

(b) (6)
